Instructions for Running Symantec AntiVirus Client Security

If you are running the Symantec AntiVirus Client Security, the following icon is displayed in the lower right-side of your system tray:

- Right click on the icon and select “Open Symantec AntiVirus...”.
- When the Symantec main window opens, click on the button labeled “LiveUpdate” to make sure you have the most up-to-date virus definitions before you run a scan.
- When the LiveUpdate window appears, click “Next” to initiate the update. After the update has completed click “Finish”.
- Next, click on “Scan” in the folder list on left side of the main Symantec AntiVirus window.
- The main window will change and show a variety of scanning options. Choose the one titled “Full Scan”.
- After you have chosen “Full Scan”, click on the button in the bottom right corner labeled “Scan”.

This process will take approximately 45 minutes or more depending on the size of the files on your computer.
