

Qualtrics

WORKSHOP

WORKSHOP OBJECTIVES

1. How to get a Qualtrics account
2. How to create a survey
3. How to add and edit questions
4. How to distribute your survey

Description	Level of Engagement	N	Mean	Distribution
+ Departments				
- Schools				
<input type="checkbox"/> + High Schools	88%	256	4.14	42.97%
<input type="checkbox"/> + Middle Schools	73%	245	4.10	36.73%
<input type="checkbox"/> - Elementary Schools	70%	418	4.04	37.32%
<input type="checkbox"/> East Hill Elementary	82%	85	4.13	41.18%
<input type="checkbox"/> Parkerville Elementary	94%	138	4.03	36.23%
<input type="checkbox"/> Grandview Elementary	84%	131	3.99	35.88%

WHAT IS QUALTRICS ?

Qualtrics is web-based survey software available for use by all UTEP Faculty, Students and Staff to support teaching and research at UTEP. Surveys can be created and distributed by anyone with a UTEP account. You can collaborate with others on surveys in real-time, and grant anyone access to surveys and reports. Multi-lingual respondents? We make it easy to translate your survey into 48 languages, then automatically serve it in a person's native tongue.
